# Doctor Highlight

## Dr Jeremy Lew Lung and Sleep Physician

Dr Jeremy Lew is part of our Medical Services, a specialist in respiratory and sleep disorders. He understands that conditions such as sleep apnoea, asthma, and other respiratory disorders can be insidious in their onset, yet significantly impact a patient's quality of life if left unaddressed.

Jeremy's role is to support both patients and referring clinicians in identifying and managing these pervasive conditions early, providing evidence-based treatment options tailored to each individual.

Jeremy aims to work closely with patients, GPs and allied health teams to ensure a seamless, patient centered approach to care, keeping everyone informed throughout the diagnostic and treatment process.

Jeremy is interested in all aspects of respiratory and sleep medicine. He currently consults at the Royal Melbourne Hospital, Bentleigh Specialist Centre and Maryvale Private Hospital, providing accessible care across different locations.

Beyond medicine, Jeremy has a knack for picking up new hobbies. He enjoys tennis, badminton, and golf when he's not playing, he's keeping up with the AFL or NBA. But above all, Jeremy cherishes time with his family. The true ruler of their home, however, is their adorable dog, Daisy. She keeps him on his toes and definitely calls the shots!

Jeremy welcomes referrals for patients experiencing respiratory or sleep-related concerns and values the opportunity to collaborate with clinicians to provide holistic, patient-centered care. If you have any questions or would like to discuss a case, please don't hesitate to reach out to Jeremy direct.
