# Doctor Highlight

## Mr David Owen Orthopaedic Surgeon

MBBS, BE/BSc, FRACS,  
FAOrthoA

Mr David Owen is part of our Surgery services, he is an Australian fellowship-trained Orthopaedic surgeon specialising in hip, knee and shoulder surgery. He is also interested in trauma, robotic surgery and is completing a PhD in Orthopaedics on wrist surgery.

David attended school in Gippsland and Melbourne, studied Engineering and Science at The University of Melbourne, and completed Medicine at Australian National University, Canberra.

Before returning to Gippsland, David worked at major tertiary hospitals including Monash Health, the Royal Melbourne, Royal Hobart, Royal Children's and The Alfred.

After completion of his Orthopaedic surgical training, David completed a fellowship in Orthopaedic trauma at Canberra Hospital, and is currently undertaking PhD research.

## Achievements

- Australian fellowship-trained Orthopaedic surgeon
- Completed training in robotic assisted joint replacement

In keeping with his interest in trauma and additional fellowship training, David also continues to treat paediatric and adult Orthopaedic trauma patients.

David is interested in how technological applications in surgery can improve patient outcomes and has completed training in robotic assisted joint replacement. He also performs hip replacement with the anterior approach.

David is keenly involved in research and has published a number of scientific papers in peer reviewed journals since 2014. He continues his research as a PhD candidate and enjoys his involvement in teaching doctors and medical students.

## Specialties

- Hip, knee and shoulder surgery
- Paediatric and adult Orthopaedic trauma
- Robotic surgery
- Medical and scientific research
